DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2 and 5 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1, 2 and 5 is the inclusion of the limitations of: an adhesive strip attached to the outer surface of the ring; and a scalpel incision on the inside middle of the ring extending the entire middle circumference of the inner area of the ring.

Keller, Jr. (U.S. Pat. No. 4121686) discloses a hollow sound-dampened structure, having an adhesive strip attached to the outer surface of the hollow structure, but fails to teach or suggest the motivation to attach the adhesive strip to the ring mute as recited in claim of the instant application.

Koizumi (U.S. Pat. No. 6843345) discloses a speaker assembly device for a door of a vehicle, including a scalpel incision on the inside middle of a cylindrical bracket extending the entire middle circumference of the inner area of the cylindrical bracket (Fig. 6), but failed to teach or suggest the motivation to apply this connection mechanism to attaching the ring mute onto and around the rim of the bell of a brass musical instrument.

It is these limitations found in each of the claims of the instant application, as they are claimed in the combination that have not been found, taught or suggested by the prior art of record, which make these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Citations

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

1) Purdie (U.S. Pat. No. 4998959) is entitled "Mute for horn-type instruments".

2) Weik et al. (U.S. Pat. No. 5373771) is entitled "Brass and wind musical instrument attachment and method related thereto".

3) Mcarthur (U.S. Pat. No. 1508024) is entitled "Mute for wind instruments".
